

PRESS RELEASE

New Hires Announcement

Mississauga, ON – June 4, 2019 - [IntegrYS](#) is pleased to introduce two new employees to our team: Shawn Pelletier and Mike Faulkner. We are confident that both these gentlemen will make significant contributions to our company and thrive in their IntegrYS careers.

Shawn Pelletier

Shawn joined IntegrYS in April as an account manager and is based in Ottawa, Ontario. With his background in electromechanical technology and engineering, coupled with his extensive technical sales experience selling into the Canadian government, he supports all military, aerospace, broadcast and telecom customers in the Ottawa area, Quebec and the east coast.

An avid tinkerer with all things mechanical and a robot builder, Shawn is also known for bombing down hills on tires and skis (not at the same time), which he balances out with the odd round of golf.

Mike Faulkner

Mike joined IntegrYS in May as the director of sales of Computer Vision and is based in Laval, Quebec. He is responsible for growing business in eastern Ontario and the maritime provinces. For over 20 years Mike has been active in the machine vision industry, serving various roles in manufacturing, distribution, integration and with OEMs. His knowledge spans all aspects of vision technologies, including cameras, lighting, optics, frame grabbers, software, and CPU, GPU and FPGA processing.

Mike is an intense competitor and we are more than pleased to now have him on OUR team.
